3. The County will provide the preliminary engineering and planning studies, the environmental analysis, right-of-way plans, plans and specifications and design of the project. The State will provide design review of the project plans, specifications and related documents, and provide comments which shall be incorporated into the design documents.

4. 5. Should some unforeseen conditions or circumstances increase the cost of said work required, by a change in the extent or scope of the work called for in this agreement, the State shall not be obligated to incur any expenditure in the project. Such changes require the prior concurrence of the County.

III. MISCELLANEOUS PROVISIONS

The County assumes full responsibility for the design, plans and specifications, reports, the engineering in connection therewith, and cost over-runs. It is understood and agreed that the State's participation is confined solely to securing federal aid; that any damages arising from carrying out, in any respect, the terms of this agreement or any modification thereof, shall be solely the liability of the County and that the County hereby agrees to save and hold harmless and indemnify from loss the State, any of its departments, agencies, officers or employees from any and all cost and/or damage incurred by any of the above and from any other damage to any person or property whatsoever, which is caused by any activity, condition, or event arising out of the performance or nonperformance of any provisions of this agreement by the State, any of its departments, agencies, officers and employees, the County, any of its agents, officers and employees, or any of its independent contractors. Costs incurred by the State, any of its departments, agencies, officers or employees shall include in the event of any action, court costs, expenses of litigation or attorneys' fees.
